ipfone Conference

Get set-up in an instant with no reservations, no monthly fees and no term contracts.

FACILITATING COMMUNICATIONS ANYTIME, ANYWHERE

IPFone offers low-cost, in-house audio conferencing and Web presentation solutions that enable your business to facilitate real-time communications with geographically dispersed resources: vendors, clients and customers.

IPFone Conferencing tools allow you and your associates to instantly set-up presentation, webinars or training sessions, reducing coordination time, while maximizing the productivity of resources. Whether your meeting with just a few people - or more than hundreds - our exceptional voice quality and reliable operations let you create on-the-fly conferencing to respond to business needs quickly and efficiently.

The IPFone Conferencing Solution allows more than 300 participants to join a conference anytime from anywhere. Online tools allow your conference to be controlled by either DTMF or a web interface for complete dynamic control.
