

COMPELLING BENEFITS

» ACCOUNTABILITY

Places responsibility of managing communications network into the hands of a professional, dependable & experienced company. ISN is the market leader in hosted VoIP services and has installed thousands of business users.

» SIMPLICITY

Consolidates to one vendor all voice, data & telephone system services.

» SCALABILITY

Standardizes, scales & adapts to your business needs. Our system will grow along with your business. You will never be required to add ports, cards or other hardware often required with conventional phone systems.

» BUSINESS CONTINUITY

Protects against business interruption. The next hurricane and loss of electricity will not bring down your telephone system since you can access it with any broadband Internet connection.

» COST REDUCTION

Eliminates your need to purchase a new phone system and lowers monthly costs by combining your phone system, local, long distance and broadband Internet access onto a single, affordable monthly bill.

THE CHALLENGE

Most businesses today lack the on-staff expertise to evaluate, purchase and manage the many phone system options available. It can also be a costly and time consuming process. Companies of all sizes need an alternative, a way to gain access to all of the features and functionality of a large enterprise phone system while avoiding the capital expenditures and operational headaches.

THE SOLUTION

ISN iPBX is an outsourced and managed telephone system designed specifically for businesses and offices from 5 to 500 employees. By combining the industry's leading VoIP technology with broadband Internet into one integrated solution, ISN iPBX not only saves your business money, it gives you a better way to stay connected to your customers and each other.
